

## Searching For Child Care

**There are three ways to get child care referrals....**

**1. Call us:**

For personalized help in accessing referrals to child care programs, call 888-5229 ext. 142.

**2. Search on your own:**

Search the state database 24 hours a day, 7 days a week to find child care. To perform an e-child care search, go to [www.brightfutures.dcf.state.vt.us](http://www.brightfutures.dcf.state.vt.us).

**3. Ask family, friends, and colleagues for referrals.**

Does your neighbor rely upon child care? Did your sister take her children to the child care center down the road? Does anyone in your workplace have children in child care?

People who have had recent experience with finding child care for their own children are a great resource.
