

LFC Board of Directors
Minutes of October 24, Board of Directors Meeting

Kim Friedman's email to Floyd Nease and Dean Burnell as a follow-up to the October 24th LFC Board of Director's meeting will have to serve as the minutes of that meeting. It was devoted entirely to a discussion about a new LFC Vision statement:

In its Oct. 24th meeting, the Board, along with several Leadership Team members, work hard to reach agreement on the beginning of a vision statement: The Lamoille Valley Community supports children, youth, and families...

Four people proposed a complete vision statement based (more or less) on this beginning:

- DEAN: The Lamoille Valley Community supports children, youth, and families in recognizing and nurturing their own capacity to lead healthy, resilient lives.
- EILEEN: The Lamoille Valley Community supports children, youth, and families to be resilient and independent in a socially inclusive community.
- CAJSA: The Lamoille Valley Community supports children youth and families to become resilient and independent, cared for and valued.
- MARILYN: The Lamoille Valley will be a place of safety and security for families, youth and children to live, work and grow.

However, two people did not use the LV community (as decided) as their starting point:

- DUFFY: Lamoille Valley children well fed, healthy and happy.
- NEAL: All children birth to age twenty-four will have opportunity and support in becoming healthy, informed, and contributing members of their family and community.
