

Instructions:

This form is to record income and expenses for self-employment only. Self-employment is the process of actively earning

- responsible for obtaining or providing a service or product **and**
- earn income directly from their own business **and**
- are not required to have federal income tax and FICA payments withheld from their earnings **and**
- are bit required to complete ab URS W4 form for and employer **and**
- are not covered by workers' compensation.

Use this form only when federal taxes have not been filed or are not reflective of current income.

Use a separate form for each type of self-employment and for each person in the household who has self-employment income. You must answer all the questions and sign and date at the bottom. Use additional sheets of paper if you need to. Sign and date each sheet. Remember, this is your sworn statement.

Income:

This is any money that you earn working for yourself. It is not money that you earn working for someone else, unless a 1099 is issued to you.

A 1099 form is a record that an entity or person other than your employer gave or paid you money. See instructions above. If you are in doubt, ask. Do not list it by the date the work was completed, list it as the date the income was received. List the gross amount before any deductions.

Income is any money that you receive via cash, check or credit card for sales of products or services you provide.

Depreciation minus Section 179 Depreciation is countable income for the CCFAP Program.

Section 179 Depreciation is found on your IRS 4562 form.

Expenses:

This is direct costs of doing business. List by date the expense was incurred.

Expenses are non-personal costs that are directly related to producing the income.

EXAMPLES THAT CAN BE CLAIMED:

- Supplies such as paper, postage
- Raw materials used to make a product
- Rent for office space
- Business insurance premiums
- Legal and accounting fees, licenses and permits
- Payments on principal and interest of loans for income-producing purposes
- Capital asset purchases such as equipment and machinery
- Advertising
- Stock and inventory
- Mileage at the current federal rate or actual expense for trips between business sites
The mileage rate includes expenses such as gas, oil, etc.
- Service, maintenance and repair of your business property and equipment
- Wages you pay to other employees or sub-contractors

Expenses that cannot be claimed:

Only expenses for your business can be claimed. Do not include person expenses or normal living expenses.

EXAMPLES THAT CANNOT BE CLAIMED:

- Net business loss from a prior year
- Costs of goods that you use for personal reasons
- Personal portions of rent, mortgage and vehicle costs
- Mileage expenses from your home to and from work location
- Federal, state and local income taxes
